Our Purpose

The Point Lookout Lighthouse Preservation Society (PLLPS) was established in August 2006. Our primary objectives are to assist in the restoration and preservation of the Point Lookout Lighthouse complex to the 1927 era and to educate the public on the important role the lighthouse has played in our local and maritime history.

Future plans include renovating the interior of the lighthouse, restoring and renovating the buoy and coal sheds, providing volunteer staff for public events and creating historical displays to share the rich history of our light station. Historical interpretation will be provided by docents at the open house and other events.

We will accomplish our goals primarily through meetings, fundraising, and hands-on work. If you would like to volunteer, please e-mail us at **Volunteer@pllps.org** or visit the Web site

www.pllps.org for more details.

All members of PLLPS will receive its newsletter, Point Lookout Keepers, which includes updates, calendars, articles on the lighthouse and its keepers, and other items of interest to our members. As always, we welcome your comments and feedback.
